February 15, 2024

Dear County Leader,

The North Carolina Department of Natural and Cultural Resources (DNCR) is excited to announce the availability of a new grant program for communities to fund activities related to the upcoming America 250 commemoration. DNCR is leading the statewide effort to plan for the commemoration, and our goal is to energize **broad**, **robust**, **and comprehensive programs** across ALL of North Carolina's 100 counties.

We are fast approaching important anniversaries of key state and national events from the Revolutionary War period. April 12, 2026, will mark 250 years since the Fourth Provincial Congress met in Halifax and passed a resolution that authorized its delegates to the Continental Congress to seek independence from the British. A few short months later all colonial representatives in Philadelphia passed the Declaration of Independence on July 4, 2026, and a new nation was born. North Carolina will mark this anniversary with wide ranging activities across a multi-year commemoration beginning April 12, 2024, with a focus on 2026. DNCR is planning a variety of activities, educational resources, and special events throughout the commemoration. We invite you to learn more on our website for <u>America 250 NC</u>.

As DNCR fosters the commemoration statewide, we seek to generate a spirit of collaboration across counties, municipalities, non-profit and tourism sectors, and civic organizations. The grants are designed to spark programs and activities on a local level to create a memorable and meaningful commemoration. Our <u>program field guide</u> includes planning resources and ideas that may help your county identify programs and activities that will resonate with your communities.

Official county America 250 NC committees are eligible to apply for grants. Eligible projects include public art, educational activities, community events, exhibits, scholarly research, printed resources, and oral history projects, among a host of other activities. This first round of applications will be the only time that counties will be able to apply for these funds without having to match any of the award in cost sharing or cash-in-hand. For information on forming your county committee, please visit the "Get Involved" tab at our website. For more information on grant eligibility, application components, and required documentation, please visit our website: https://www.america250.nc.gov/grants

The America 250 NC team is available to help with questions about the grant program, the application, and award process, or any other related topics. Please reach out to our team email at america250nc@dncr.nc.gov and be sure to use AMERICA 250 NC GRANT in the subject heading.

You can mention a larger project goal, but make sure to be very specific about the result of this funding (your grant deliverables). Best Practice: Number them in a list. For example: 1) Panel installed. 2) Companion materials printed and uploaded to the location's website. 3) Public opening held. 4) Docents trained. 5) Series of related lectures held. 6) A teacher guide was created, and field study information was distributed to local schools. For example, the new signage will last for approximately 10 years and will inform a new generation of county residents on the important history that happened here.

5. Partnerships: While not required, America 250 NC encourages partnerships to broaden the scope of any project. List any community organizations that will partner with your sponsoring organization on the planning and implementation of the project. What will be partner commitments and how will you document that commitment? How will you structure project accountability for each partner's role? B. Collections / Distribution Personnel - Erin Burke

As part of the South Mills Water Association (SMWA) acquisition the County has agreed to extend an offer of employment to the two fulltime SMWA employees. One position will be a distribution and collections system operator and the other will be a customer service representative. The County currently has approximately 2400 water customers, and has maintained the existing staff levels for a long period of time. The addition of SMWA will add 1200 new customers.

With the approved growth in the County, and with stagnant staffing it is likely that there will be delays in service if staffing is not increased within the department. Public Works is requesting that in addition to the distribution and collections system operator and customer service representative, that one more distribution and collections system operator be added. The Public Works Director has indicated department intends to request one additional distribution and collections system operator in the FY 24/25 budget, bringing the total field staff to six plus a meter reader.

Staff recommends approval of one additional distribution and collections system operator in the current FY 23/24 budget.

Motion to approve one additional distribution and collections system operator in the current FY 2023-2024 budget.
